

Site #: 90

County: Jefferson **Town:** Marrowstone

Site Name: Fort Flagler East

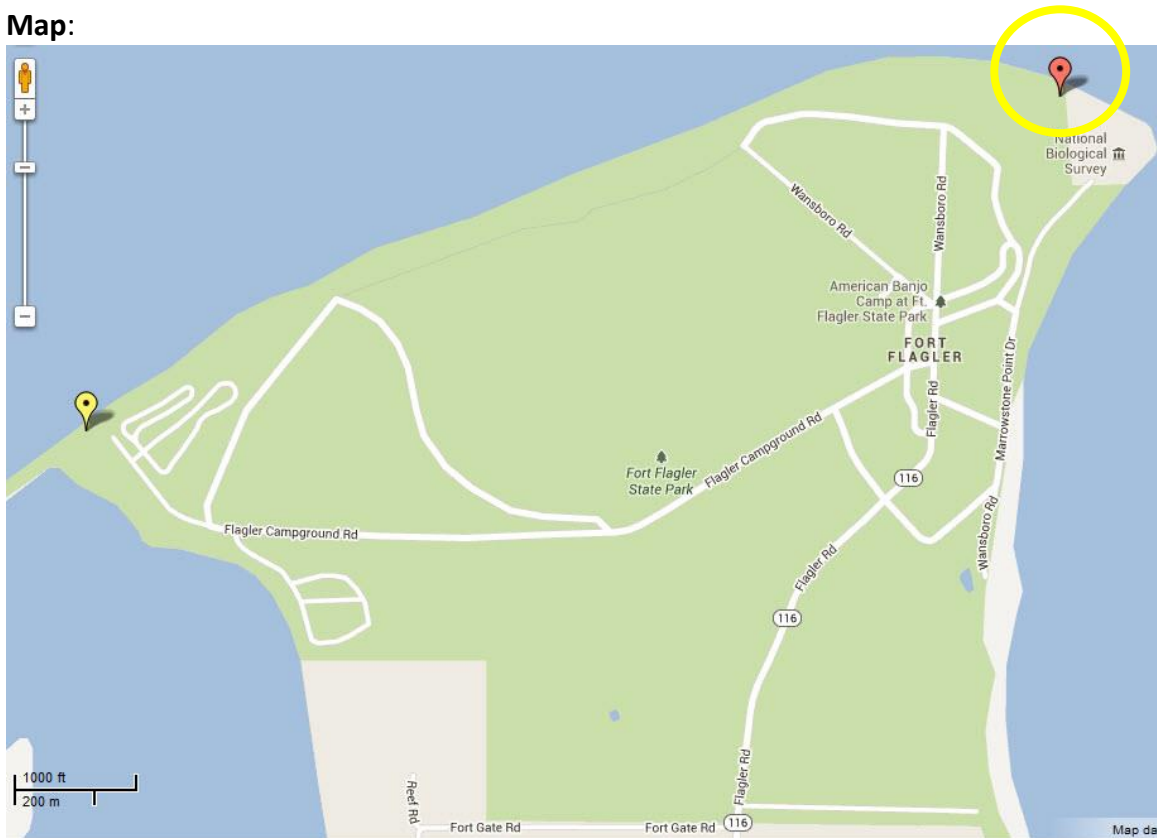

GPS: N48° 06.152, W122° 41.434

Location: Fort Flagler State Park. From Port Townsend, head southwest on Tyler St., turn left onto Jefferson St. and continue onto Quincy St. Turn right onto Water St., continue onto E Sims Way, W Sims Way and then State Route 20. After 2.5 miles continue onto WA-19 S for approx. 3.5 miles. Turn left Ness's Corner Rd and continue onto Oak Bay Rd. Turn left onto WA-116 E and continue for 2.8 miles, take a slight left onto Flagler Rd and continue for 6 miles. Turn right towards Marrowstone Point Dr just before the row of buildings, take first right and then turn left onto Marrowstone Point Dr and drive to the end. Park in the lot just before the USGS/National Biological Survey building. Take either path, on either side of the pond located west of the USGS building, to the beach on the north side of the point where the survey location is situated.

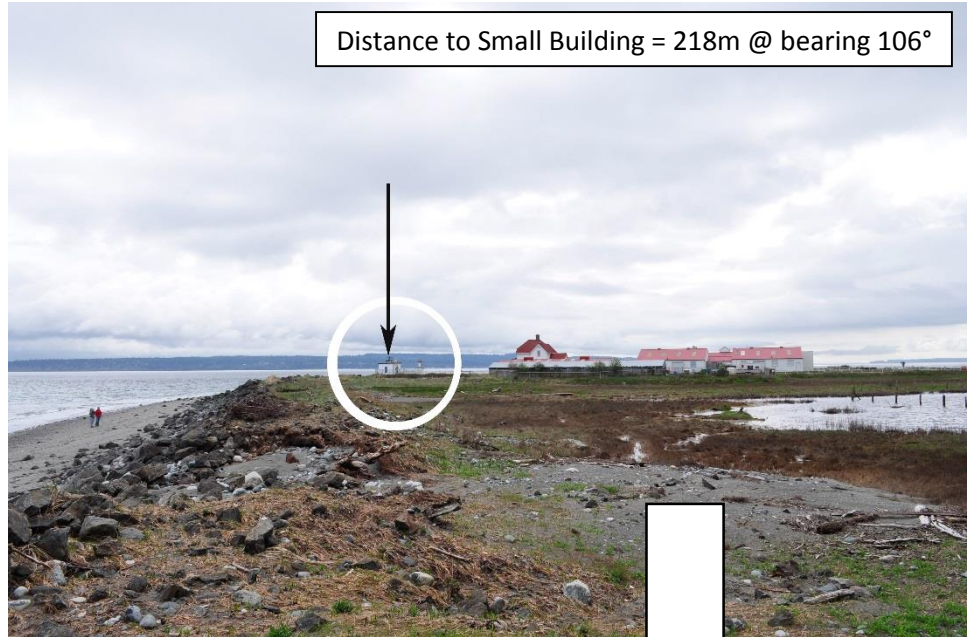

Access: The Park is open year-round for day use. In summer months the park opens at 6:30am and closes at 10pm, in winter opens at 8am and closes at dusk. There should be sufficient parking in the small lot near the USGS building. A short walk is required to access the survey location.

Notes: A Discovery Pass is required for this State Park. The survey site is located at the end of the trail that leads past the pond to the grassy, packed-earth embankment, adjacent to the forest edge and just before the larger boulders of the beach begin.
